Member Since: April 02, 1963

The DCMS Online Membership Directory allows **current and prospective patients** to search for DCMS members and their information including: specialties, contact information, practice website, map and link for directions. **Will patients find YOU in the DCMS online directory?**

COMPARE ONLINE PHYSICIAN DIRECTORIES

- Advertising on www.Jacksonville.com: > \$200 per month (\$2400+ annually)
- Yellow pages ad: > \$55 per month for a minimum ad (\$660+ annually)
- Upgraded listing on www.healthgrades.com: \$46 a month (\$552 annually)
- Upgraded listing on www.angieslist.com: \$27 a month (\$324 annually)
- DCMS Online listing: **\$295 annual dues + Additional Benefits**

**Patients trust their physicians and
their medical society over all the alternatives.**

MEMBERS ARE THE OF THE

ADVOCACY IN ACTION

The DCMS maintains strong relationships with local, state and national legislators. In cooperation with the FMA, we work to shape pro-medicine legislation and prevent legislative action that would be detrimental to the practice of medicine (e.g. scope of practice expansion). Maintaining strong physician-patient relationships and the integrity of the medical profession are the two principles which guide our advocacy positions.

PARTNERS IN MEDICINE

To benefit your bottom line, the DCMS cultivates *Partners in Medicine* with vendors who provide discounts or specialized services to members. A few of our partners include FPIC (professional liability insurance), SunTrust (banking), and OptaComp (worker's compensation). Visit the DCMS website for details on all of our *Partners in Medicine*.

PHYSICIAN REFERRALS

The DCMS provides referrals for patients and physicians from over 2,000 physician members within Duval County. Physicians are randomly selected according to the needs of the person requesting the referral. A searchable, real-time database of DCMS physicians is now available on our website and promoted to the public.

COMMUNITY INVOLVEMENT

Since the organization's founding in 1853, the DCMS has actively participated in numerous community initiatives which address access to health care and other medical issues. Physician leaders and DCMS staff advocate for strong physician-patient relationships and overall community health and wellness.

CONTINUING MEDICAL EDUCATION

The DCMS conducts a variety of workshops and seminars on medical practice management, financial planning for retirement, health information technology, and disaster preparation. DCMS publishes the only peer-reviewed county medical society journal in the state, *Northeast Florida Medicine*, which provides complimentary CME credit to DCMS members on mandated CME topics and current medical issues. Live and online CME opportunities are promoted on our website and in member communications.

HIT / PRACTICE MANAGEMENT RESOURCES

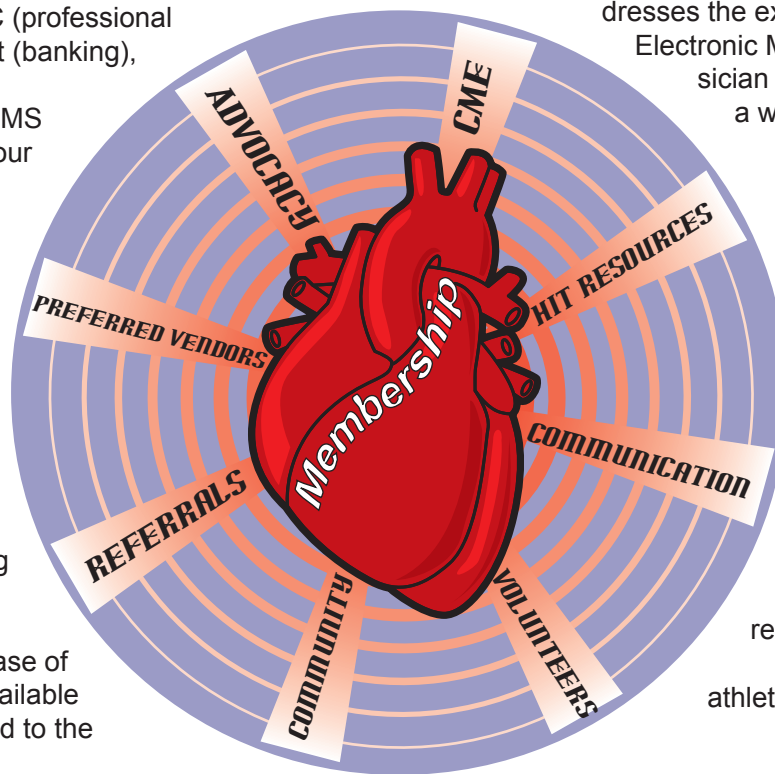

Working with regional coalitions via the Northeast Florida Health Information Consortium, the DCMS actively addresses the expansion of ePrescribing and Electronic Medical Records in local physician practices. Our website offers a wide variety of health information technology and practice management resources and networking opportunities.

VOLUNTEERS

The DCMS supports recruitment of physician volunteers for organizations providing free and reduced cost care to the homeless and working poor in our community. We also recruit physicians to participate in the JSMP pre-participation athletic screenings for student athletes and community events.

COMMUNICATION

The DCMS communicates with its members via fax, website, and email newsletters. In partnership with Heritage Publishing Company, Inc. the DCMS publishes a comprehensive annual physician directory. The DCMS cultivates relationships with local media to help assure balanced healthcare reporting.
